

Add or Edit a student's enrollment into a(n) **Program**. Depending on available options, a student may have several program types selected per **Program**.

Program 5 (Change selection)

Only one active enrollment per **Program** is allowed for the student. To add an enrollment to another **Program** or if the student does not have an active enrollment in this **Program**. To add one, select an enrollment date and then click Submit.

SEPARATING STUDENTS

See How To Separate Students documentation
for more info

NRS Registered Students missing Attendance Hours

The following students have not had attendance entered for at least **90** days and the following Period of Participation(s) should be separated.

The separation date will, by rule, be established as of the last date of activity.

All attendance hours within in the Program must be approved.

If a student is still placed in a class or classes, this separation process will remove the student from those classes as of the last date of attendance for that class.

To separate, select the students by selecting the check box, choose a separation reason for each, make determinations on other registration types and then submit the page.

Filter by location:

-- ALL Locations --

Filter by return date:

All students, regardless of return date status
