

# Phase II - Module 7

## Final Thoughts

As we conclude this portion of the class, it's crucial to emphasize the importance of thoroughly understanding all the material covered so far. This is your final opportunity to ask any last-minute questions. However, please be mindful not to monopolize class time, as you will need it to complete your assessments.

## FNS Application to Case Assessment

Each student will be assigned at least one FNS scenario from those provided in class. You will have a minimum of 3 hours to complete the process from application to case.

Students must record all vital information from the application/case for instructor review and grading. This information will also be stored for records and audit purposes. Work will be assessed using a grading rubric, with points added or deducted based on the accuracy and completeness of your responses.

## Important Notes:

- You must complete the entire process from start to finish. Incomplete scenarios will not be graded.
- The Activity Number corresponds to the Scenario Number.
- Scores should reflect the activity of the application to case process, changes, and recertification.
