Transportation Charges

The specified location may include a loading dock or area inside a building. Awarded Vendor shall notify Buyer at least two (2) business days in advance of a delivery to allow for the availability of agency personnel to receive the product(s) if agency so requires on its purchase order.

Vendor shall furnish all necessary transportation, materials, and supplies as may be required to deliver, install and set-in place ready for owner's use. The successful Vendor(s) shall notify the Buyer when one or more items in an order cannot be delivered within the time specified. After notification to the Buyer of a fulfillment delay of one or more items in a shipment, the Buyer may cancel undelivered items within an order, or an order in its entirety, without penalty or charge, providing the cancellation occurs before the delayed item or order has shipped.

Installation of items requiring custom or complex fitting or assembly efforts due to the nature of the item may be billed under the following conditions: the amount of the installation charge is identified in Vendor's catalogue in conjunction with the relevant item, the Buyer is provided an option to affirmatively accept or decline installation services at the time of ordering, and any approved charge is listed as a separate line item on the purchase order and invoice.

Acceptance and approval of charges for installation of such items shall be at the sole discretion of the Buyer. Any resulting damages to the item or to other State property during the installation by the Vendor shall be repaired at the Vendor's sole expense. General set-up activities needed to make an item ready for use shall not be considered installation and shall be included in the contract price. Upon completion of the installation, the Vendor shall remove and properly dispose of all waste and debris from the installation site. The Vendor shall be responsible for leaving the installation area clean and ready to use.

Certification & Safety Labels	All manufactured items and/or fabricated assemblies subject to operation under pressure, operation by connection to an electric source, or operation involving a connection to a manufactured, natural, or LP gas source shall be constructed and approved in a manner acceptable to the appropriate state inspector which customarily requires the label or re-examination listing or identification marking of the appropriate safety standard organization; such as the American Society of Mechanical Engineers for pressure vessels; the Underwriters Laboratories and /or National Electrical Manufacturers' Association for electrically operated assemblies; or the American Gas Association for gas operated assemblies, where such approvals of listings have been established for the type of device offered and furnished. Further, all items furnished shall meet all requirements of the Occupational Safety and Health Act (OSHA), and state and federal requirements relating to clean air and water pollution.
